The AFOS comprises 10 member societies from 9 countries in Asia region. As osteoporosis management involved efforts from various specialties, this conference is designed for endocrinologist, orthopaedic surgeons, rheumatologists, obstetricians & gynaecologists, oncologists, physicians or general practitioners, trainees, medical officers, nurses, dieticians, nutritionists, radiographers, allied health professionals and anyone involved in the management of patient with osteoporosis.

The AFOS conference is fully intended to provide a platform for discussions and interaction so that together we can gain a better insight on osteoporosis and to advance research and collaboration across the region. From the laboratory bench to new therapeutic agents; from epidemiology to clinical outcome; from new ideas to fresh research data; there will be plenty to discuss and impart. We have also invited key opinion leaders from Asia region and the world to look at future directions of osteoporosis management. We are targeting 500 participants from Malaysia and overseas.
